Nassapequa, L. I., N. Y. January 28, 1941

Camellia arrived in perfect condition. Though it came in a good snow storm it was as snug as a bug in a rug. Mrs. J. F.

Section 562, P. L. & R.

THIS IS AN HONEST PRICE LIST

Most nurseries offer their Camellias showing only the height of plant and price each, often selling them by names of doubtful authenticity.

They never tell you the age of the plant. Neither can you know if the plant will bloom this season or not. In other words they do not tell you if the plant has flower buds, nor do they indicate the character of growth or give information as to the size pot or approximate shipping weight.

This LONGVIEW Price-List, like all our previous lists, leaves nothing to your imagination.

For many years, LONGVIEW "TRUE TO NAME" or description, Camellias have been sold by Lot Numbers, and each plant marked with a permanent embossed copper label, attached with a flexible Monel metal cable. No other nursery dared to use permanent means for identification of the plants they sell. This is your guarantee of satisfaction when Camellias come from LONGVIEW.

Camden Conn. March 22, 1941

The Camellias ordered from you arrived in perfect condition, and were much nicer plants than I expected.
H. C. K.

Macon, Ga. March 14, 1941

Your Camellias were gorgeous and our visit to LONGVIEW was the high light of our trip.
Mrs. A. E. B., Jr.

Portland, Oregon Feb. 13, 1941

The Camellia arrived fresh and beautiful. Your method of packing is superior to any I have EVER received from other parts of the country.
Mrs. V. W. A.

IMMEDIATE DELIVERY

LONGVIEW pot-grown Camellias can be shipped any month of the year with safety. There's no delay, no waiting a year or two years for a graft "to take", which you will experience when buying grafted Camellias.

Pot-grown Camellias are much superior to field-grown plants since the roots must be cut back when dug, and the ball of soil wrapped with burlap before shipping.

Only pot-grown Camellias reach you with the complete root system undisturbed, and ready to grow or bloom.

Buy LONGVIEW pot-grown Camellias with every assurance of getting healthy, vigorous plants, true to name or Lot Number description.
